

Online art workshops

Give your students the opportunity to build critical thinking, communication skills and encourage their creativity, self-expression and self-discovery.

WHAT

Remai Modern's online art workshops build on the success of the museum's in-person programs for students. Promote informal learning through viewing, discussing and making art and create chances for students to better understand themselves, their peers and their community.

WHY

Our classroom programs connect to curriculum, feature Saskatchewan and Canadian artists and encourage students to engage with compelling issues in a grade-appropriate manner. Remai Modern recognizes the importance of keeping art a fundamental element of the classroom experience. Our virtual workshop series ensures that work can continue, even if in-person workshops aren't possible.

WHO

All of our online workshops are designed and delivered by Remai Modern's expert Program Guides. These staff members are all practicing artists themselves and bring a wide range of art historical and practical skills to the workshops. Plus, they have experience working with children and people of all ages.

rRemai mModern

We are pleased to offer three online program formats to best suit the needs of you and your classroom:

Option 1: Project package and art lesson plan — \$60

This package provides everything you need to confidently teach your students art viewing and discussion skills. You'll receive a video of a Remai Modern educator demonstrating the art viewing process with children, and instructions and materials for discussion and artmaking.

Art interpretation is a lifelong skill that can be applied to any artwork. This workshop package includes:

- Fun demonstration video with a trained educator using an artwork from the Remai Modern collection
- Image of an artwork to repeat the viewing process with your students, encouraging conversation around the art and artist themes
- Sample questions and prompts to encourage discussion
- Reference materials
- Step-by-step instructions for a hands-on art activity inspired by the artwork themes
- Lesson-specific art materials (available for delivery or pick-up)
- Support from a Remai Modern educator before and after the program. They can also provide feedback on artwork for students.

Option 2: Live interactive online art viewing and artmaking — \$150

A Remai Modern art educator will guide students through viewing exercises with artwork from Remai Modern's collection. The exercise encourages mindful observation, personal interpretation and engaging the students in discussion around themes connected to curriculum.

The educator will also lead students through a hands-on art project informed by the artwork and the conversation. This workshop package also includes all the materials in the above package.

HOW

To register visit www.experiencereimodern.ca/educators

For more information contact Carol:

cwylie@reimodern.org

Option 3: Virtual Workshops – a collaborative offering from Remai Modern & MacKenzie Art Gallery — \$150

This interactive experience, which draws on the public collections of both institutions, will highlight Indigenous artists from the region and beyond.
